

Air Traffic Control Services

Part of the Huntsville Airport Open House and "Squawking and Talking" seminar series. A fun day at the Huntsville airport with several seminars, free food, and mingling with pilots, examiners, and ATC personnel. This seminar will provide an overview of air traffic control services, review the limitations of radar coverage, look into weather detection capabilities, and discuss operations such as traffic advisories and separation.

Directions: Open house and seminars will be in Signature's maintenance/avionics Hangar. If driving, exit to the HSV airport from I-565, then follow the General Aviation signs. Parking will be in the adjacent parking lots south and north of the Signature complex. If flying in, just advise Signature personnel that you are attending the Open House and seminars.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!
